**MOTION FOR DISQUALIFICATION OF ALL DISTRICT AND MAGISTRATE JUDGES  
WITHIN THE SEVENTH CIRCUIT**

Beverly Mann, *pro se*, moves pursuant to 28 U.S.C. § 455(a) for the disqualification of all district judges and magistrate judges within the Seventh Circuit. In support, she states the following:

Mann incorporates by reference and relies here upon the contents of her Response to Motion of the United States to Dismiss, which she is filing along with this motion. Section 455(a), titled "Disqualification of justice, judge, or magistrate judge," provides that "[a]ny justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned."

The contents of Mann's Response to Motion of the United States to Dismiss make clear the need for disqualification of all district and magistrate judges within the Seventh Circuit, as the subpoenaed witnesses on whose behalf the United States has removed this matter to this court include several Seventh Circuit appellate judges, two of whom it is alleged in a related legal matter engaged in significant misconduct that may be criminal in nature and that imperil their

reputations and careers, six of whom are defendants in the related legal matter. The work of each district and magistrate judge within the Seventh Circuit is regularly reviewed on appeal by those judges.

The related legal matter is a lawsuit pending in the United States District Court for the Eastern District of Michigan, which is Mann's home district. A copy of the complaint in that case has been made a part of the record here, and the status of that case is summarized in Mann's Response to Motion of the United States to Dismiss, at p. 5, n. 1. Mann asks that this matter be transferred to that court and either combined with that lawsuit or handled as a separate matter there. In any event, she asks that all district and magistrate judges within the Seventh Circuit be disqualified in this matter.

Respectfully submitted,

s/Beverly Mann
